About America's Blood Centers

Founded in 1962, America's Blood Centers (ABC) is North America's largest alliance of community-based, independent blood programs.

Be part of our movement to amplify and advance the contributions of community blood centers to individuals, communities, and the healthcare system through advocacy, awareness, and collaboration. Specifically, we:

- Advocate for laws and regulations recognizing the essential role that independent blood centers play in the healthcare system.
- Promote partnerships, policies and programs that increase awareness about the need for blood donation.
- Serve as a thought-leader in the advancement of evidence-based medical and scientific solutions related to health and safety.

ABC programs bring together senior level executives from around the country to promote thought leadership and innovative solutions to our industry's toughest challenges. We consider our industry partners an integral part of this work and look forward to partnering with your company to further our mutual goals.
